(1) CULTURAL PLAN

RC previewed the Plan summary and led discussion to identify items that were missing or needed to be improved and consider who should be the key players (organizations) involved in each action item.

FACA representatives and RC discussed that step one for the Alliance is likely to be reconstituting the Alliance as a coordinating/facilitating organization in support of the plan and hire a coordinator.

Group discussed different options for presenting the final Plan to the community and get buy-in for implementation. Ideas include have all partners, including the town, adopt the plan simultaneously in an "Adoption Day" or at a special event.

RC again stated they were pleased with turnout at meetings and the level of participation in surveys.
